1. Report to Ordinary Shareholders

Directors' Statement

The Board of Directors of Future Energy Source Company Limited ("FESCO" or the "Company") takes pleasure in presenting the Company's unaudited fourth quarter financial statements for the financial year April 1, 2023 to March 31, 2024.

Executive Summary

We are pleased to report that the Company has achieved its best year to date as it relates to gross profit (J\$1,455,217,297), operating profit (EBIT) (J\$672.3 million, up 18.7 % from J\$566.4 million), earnings before interest, taxes, depreciation and amortization (EBITDA) (J\$846.9 million up 42.3% from J\$595.4 million), and most significantly shareholder's equity. Shareholder's equity of J\$2.15 billion as at March 2024 is up 64.7% or J\$842.9 million year over year from J\$1.30 billion as at March 2023 which is almost seven times (7X) the Company's shareholder's equity of J\$318.4 million as at March 2021.

For the year, the Company was able to achieve its main targets to:

1. Create brand awareness for FESGAS™ and establish an accretive and sustainable LPG business;
2. Increase its service station network foot print and increase fuel sales measured in litres;
3. Increase profitability, specifically as it relates to operating profit (EBIT) and operating cash flow (EBITDA)
4. Execute significant investments in capital expenditure (CAPEX); which does not yet reflect in sales or profit but for which the Company forecasts sustainable returns in the medium term and whilst having generated ROE after tax of 30%.

Net profit after tax (NPAT) of J\$515.1 million slipped 9.8% or J\$56.2 million year over year from the Company's record profit achieved last year of J\$571.3 million. The slippage in Net profit reflects a significant increase year over year for:

1. Interest expense (net) +J\$165.3 million;
2. Depreciation +J\$136.7 million and;
3. Advertising expense +J\$31.4 million.

The increase in interest expense, depreciation and advertising, in the main, is reflective of and is attributable to our medium to long-term vision to expand our network foot print, our expansion into LPG distribution and to increase brand awareness for both FESCO and FESGAS.

The Company's discrete quarterly (Q4: 3 months) performance reflects the booking of outstanding supplier invoices relating to previous quarters within the year. Normalised net profit for the 4th quarter (Q4) would have been approximately J\$112 million versus the reported J\$49.1 million. Accordingly, for a more meaningful discussion we will focus our analysis and reporting on the full year's (12 months) performance instead of the three months ended March 31, 2024.

The Company's annual performance reflects an increase in gross profit, operating profit (EBIT) and EBITDA. All whilst acquiring, establishing and distributing LPG via our FESGAS™ brand, which includes two (2) company operated LPG filling plants, increasing our network foot print by three (3) service stations: FESCO Kitson Town, FESCO Maypen, and FESCO Port Maria, improving brand awareness, and increasing its advertising, depreciation and interest expenditures. For the year, the Company achieved:

1. Gross profit: J\$1,455.2 million up J\$567.4 million or 63.9% vs year ended March 2023
2. EBIT: J\$672.3 million up J\$105.9 million or 18.7% vs year ended March 2023
3. EBITDA: J\$846.9 million up J\$251.6 million or 42.3% vs year ended March 2023
4. Net profit: J\$515.1 million down J\$56.2 million or 9.8% vs year ended March 2023
5. Book value of equity: J\$2.15 billion, up 64.9% since March 31, 2023

Financial Highlights:

For the year ended March 31, 2024, FESCO recorded Turnover/Revenues of J\$28,777.3 million which reflects a 9.49% or J\$2,495.1 million year over year increase. Several factors affect revenue/turnover with the supply price of fuel being a major component.

For quarters Q1 and Q2 all fuel prices fell significantly versus the previous year, and for Q3 and Q4 diesel prices fell significantly while gasoline prices increased negligibly. Accordingly, FESCO's growth in Turnover for the year ended March 2024 reflects significant growth in litres of fuel sold. Please refer to price tables below:

Again, the Company's discrete quarterly (Q4: 3 months) performance reflects the booking of outstanding supplier invoices relating to previous quarters within the year. Normalised net profit for the 4th quarter (Q4) would have been approximately J\$112.0 million versus the reported J\$49.1 million. Accordingly, for a more meaningful discussion we will focus our analysis and reporting on the full year's (12 months) performance instead of the three months ended March 31, 2024.

FESCO recorded gross profit of J\$1455.2 million for the year which reflects growth of 63.9% or J\$567.4 million year over year. The improvement in gross profit reflects both increasing throughput (measured in litres of fuel sold) and diversification of product offerings (fuel types including LPG) and services (increased retail presence).

Operating Expenses of J\$784.5 million, for the year, is up J\$477.2 million versus last year or 155.3%. This expansion of expenses directly reflects the expanded:

1. Operating locations including the additions of: FESCO Kitson Town, FESGAS Bernard Lodge and FESGAS Naggo Head;
2. Asset base which includes increased operating LPG and service station assets;

3. Operational scope (which now includes increased retailing and manufacturing);
4. Early stage new business costs including but not limited to:
 - a. business acquisition;
 - b. property acquisition and development costs; and
 - c. business integration costs.

The Company is committed to and has expanded its Marketing and Advertising expenditure to create brand awareness for its "FESGAS" branded LPG products, among other initiatives. For the year, the Company's advertising expenditure was J\$47.0 million which is up 201.3% or J\$31.4 million for the year.

Staff costs for the year of J\$270.7 million, which is up J\$155.1 million from J\$115.7 million last year, reflects the expansion of our staff complement (up from 68 to 131) and is consistent and reflective of our expanded operations, operating locations and operating scope and remains relatively efficient as it is just 34.6% of overall expenditure (2024: 34.6% vs 2023: 35.6%) and just 18.6% of gross profit (2024: 18.6% vs 2023: 13.0%).

Other Expenses which includes but is not limited to security, insurance, listing fees and trust services (JSE and JCSD), motor vehicle expenses, and irrecoverable GCT for the year of J\$184.4 million, which is up J\$132.1 million from J\$52.3 million last year, reflects the Company's expanded operations, growing asset base as well as one-off charges. Other Expenses is 23.6% of overall expenditure (2024: 23.6% vs 2023: 16.1%), and is 12.7% of gross profit (2024: 12.7% vs 2023: 5.9%).

The Company's LPG operation is capital intensive as it relates to its fixed asset requirements to establish and fulfil the business' services and operation. Accordingly, depreciation and interest expense will in the forming period outweigh its medium and long term "weight" relative to gross profit exemplified by depreciation for the year totalling J\$164.7 million versus J\$28.4 million last year. Similarly, interest expenses (net) for the year of J\$157.2 million has increased year over year by J\$165.3 million.

In summary, staff costs, bank charges, advertising, and asset based expenses including but not limited to depreciation, insurance, and security continue to be our main expense items. Our operations continue to be efficient, represented by our total operating expenses being approximately 53.8% of gross profit. Notably, for this stage of our LPG business development, the Company's total operating expenses excluding depreciation is just 42.5% of gross profit. The Company's expense profile is changing and will reflect its expanded and evolving scope of operations. The Company's expenditure and revenue targets are in line with its internal forecast and mix of established and early stage business expenses.

For the year, FESCO recorded operating profit or EBIT of J\$672.3 million which reflects 18.7% or J\$105.9 million, year over year increase. Earnings before interest, taxes, depreciation and amortisation EBITDA was J\$846.9 million up J\$251.6 million or 42.3% from J\$595.4 million earned in the previous year ended March 2023.

For the year, FESCO incurred finance costs (net) of J\$157.2 million which reflects interest costs related to its debt/bonds etc., net of interest income and foreign exchange gains.

For the year ended March 2024 profit after taxes of J\$515.1 million reflects a slight decline of 9.8% or J\$56.2 million, year over year.

Book Value or Shareholders' Equity as at March 2024, has increased to sum J\$2,147.1 million, up from J\$1,301.9 million as at March 31, 2023 which reflects increased profitability, profit retention and revaluation reserve increase of J\$330.1 million.

The Company remains significantly, and sufficiently liquid represented by net current assets of J\$330.2 million (March 2023 J\$302.0 million) and cash and cash equivalent balances of \$282.4 (March 2023 J\$287.9 million). As at March 31, 2024, the Company's Debt to Equity (D/E) (*long term-static*) is 0.72 versus 1.36 from March 31, 2023. The improved ratios (current ratio and D/E) reflect long term debt repayment of both principal and interest, and increased shareholder's equity (both undistributed profits and revaluation reserve increases).

A look ahead

FESCO continues to monitor the moderating inflationary forces within the economy, the recent interest “freeze” by the central bank, the near full employment in many sectors of the economy, a resilient and expanding tourism product among other factors affecting consumer consumption as well as our allocation of investment capital. The Company must also navigate industry-related margin contractionary forces and consolidation within the industry. The Company remains mindful of opportunities for growth and further investment. Internal or self-funding via profit generation, profit retention, at this time, has proven to be the most efficient and cost effective source of capital to fund growth.

The Company opened its twenty third 23rd service station, FESCO Hayes (DOCO) in April 2024. FESCO expresses gratitude to its staff and contractors who participated in the project's execution. Valued stakeholders, you are invited to patronise the station and it is hoped that you will experience great fuelling services and other conveniences at all FESCO branded service stations.

FESCO recently received approval for its proposed service station on Spanish Town Road, “FESCO Oval”. FESCO Oval will be a company owned and company operated service station (COCO) and will facilitate increased retail presence within the Kingston and St Andrew (KSA) region. FESCO Oval intends to showcase the creativity, forward thinking, mindfulness, commitment to community and the immense potential of Jamaica and Jamaicans; we believe it will embody our tag line and motto, “Proudly Jamaican”. The development will take approximately fifteen (15) months to execute and we anticipate its opening during Q2 2025 (i.e. July 2025 – September 2025).

We are in growth mode, and during the year ended March 2024 we have made significant investments that do not yet reflect in sales or profit but will spur the Company's future growth and profitability in the medium term. Further, the Company will continue to make investments in real assets and equipment to support expanding its service station businesses and network, its industrial client base, and LPG business.
